MEM Non Essential Amino Acids Solution 100X

Product Code: ACL006

Product Description:
ACL006 is a 100X concentrate of non essential amino acids present in the Minimum Essential Medium (MEM). Addition of amino acid supplement to medium stimulates growth and prolongs viability of cells in culture.

ACL006 is a sterile filtered MEM non essential amino acid solution prepared in cell culture grade water.

Composition:

Directions:
For preparing 1X concentration of amino acid solution use 10ml of 100X solution of ACL006 per liter of medium i.e. 10ml of 100X solution ACL006 contains 1X amino acids.

Quality Control:

Appearance
Clear, colourless solution

pH
3.20 -3.80

Osmolality in mOsm/Kg H2O
50.00 -90.00

Sterility
No bacterial or fungal growth is observed after 14 days of incubation, as per USP specification.

Cultural Response
The growth promotion capacity of the amino acid solution is assessed qualitatively by analyzing the cells for the morphology and quantitatively by estimating the cell counts and comparing it with a control amino acid solution through minimum three subcultures.

Endotoxin Content
NMT 5EU/ml

Storage and Shelf Life:
Store at 2 - 8°C.
Shelf life of the product is 18 months.
Use before expiry date given on the product label.
