

Advancing to the next level

**UNIQUE
AUTOMATED
SOLUTION**

**PLASMID
DNA
EXTRACTION**

FEATURES

- **Single sample processing**
can also be done
- Robust - works with high and low copy plasmids
- Reliable method of isolation for further downstream processes
such as DNA sequencing, PCR, transformation, restriction enzyme digestion

**Automated Nucleic
Acid Extractor**

Insta NX® Mag16 Plus
(MBLA018)

Magnetic
Bead Based
1-16
Samples

**Magnetic Automated
Extraction Kits**

HiPurA® Pre-filled Cartridges
for single sample processing
for Plasmid DNA Extraction
(MB508PC16)

HiPurA® Pre-filled Plates
for Plasmid DNA Extraction
(MB508MPF16)
